The No-Brainer Wallet

The no-brainer wallet; designed to help those with fine-motor skill issues, such as Parkinson's.

The Cash-Clip, holds all your cash and receipts right where you can see them.

The Coin Pouch, made transparent so you can always see what coins you have, and sealed with velcro for easy access at any time.

The Card Straps, fabric straps that use silicone dots to hold your cards in place until you open the velcro to grab them. the straps are staggered for your visability.
